## SUMMARY

I'm looking for hands-on programming experience to help me prepare for a future career in computer science.

## EXPERIENCE / PROJECTS

### Rock Climbing Ecommerce Website - HTML, CSS, JavaScript

Cliffer! A mockup rock climbing company whose website lists products for sale, a detailed description on services offered for new and experienced climbers. Uses modern UI/UX design, currently fully responsive, with a functional shopping cart and Google maps API.

Click to view code: <https://github.com/Gabeykun/gabrylkutcher.github.io>

### PortFolio — HTML, CSS, Javascript

A self-created website where I display my finished projects. This contains my ecommerce website, a Connect 4 game, and a functional calculator. It also has a modern contact form connected with the Google Sheets API.

### Connect 4 - HTML, CSS, Javascript

This was my first project where I used Javascript as a personal challenge. I've created a classic version of the game Connect 4 that takes inputs from two users, DOM manipulation, and also displays a win screen if a win condition has been met.
